

**Counseling and Psychological Services (CAPS) is recruiting students interested in being a part of the new CAPS Student Advisory Team (C-SAT) convening in November 2009. C-SAT members will learn about the operations of a university counseling center, provide direct feedback on the department's services, and participate in education and advocacy efforts to raise awareness of mental health issues on campus and lower the stigma related to seeking help.**

**All students are welcome regardless of whether they utilize(d) counseling services or not. Interested students are asked to e-mail the information below to CAPS Associate Director Dr. Monica Ng at [monicang@csupomona.edu](mailto:monicang@csupomona.edu).**
